

Ratpack Archers Newsletter April 2022

RED COURSE

The red course will be re-laid in the next month or so

We are aware of the problem with the bedded deer on target 8 and it will be fixed when we do the course

FINAL REMINDER

If you have not paid your subs to both Ratpack and NFAS by 01 April you are no longer allowed to shoot at the club.

Some targets have been removed for repair and painting. They will be returned as soon as possible

MOVING TARGETS / PEGS

Do NOT move any targets or pegs.

If you are unhappy with the shot as laid out, contact Andy and explain why.

When a course is laid, we have to take into account things like "overshoots" and "bounce-backs".

Recently, someone moved the owl on Green 8 which would have broken archers arrows if it had fallen over.

BLUE COURSE

Due to falling trees, targets 8 – 11 have been moved. Follow the arrows.

BIRD FEEDERS

Whilst I do not mind people who re-fill the feeders when they are getting empty, can you please replace the seed etc. when the tins are getting empty.

The club does NOT pay for the food, it comes out of my own pocket, and is getting expensive.

COMPANY OF 60

13 Ratpack archers went away to a very muddy 2022 Spring Shoot. We came away with 3 x 1st, 2 x 2nd and 2 x 3rd in the various categories. Well done to everybody.

Next shoots are Co of 60 24 April South Wilts 01 May
