

## Ratpack Archers Newsletter February 2022

### Stolen

We had a target stolen from the green course at the beginning of January.

Please keep an eye out for strangers and challenge anyone that you do not think should be in the woods

### Arrows

NFAS General Rule 15 states "All arrows must bear the archers name"  
There are lots of un-named arrows in the green shed. If they are not collected by the 28<sup>th</sup> Feb, they will be removed and will become "club" arrows.  
From then on ALL un-named arrows will be removed at the end of each month.

The new practice butts are finished with 6 targets at different distances

### Targets

Look out for some new hanging targets that are being trialled. Especially on Blue 10

### Xmas Club Shoot

- 1<sup>st</sup> Kim Leas 64 points
- 2<sup>nd</sup> Rob Enticknap 63 points
- 3<sup>rd</sup> Lee Ricketts 62 points

### Xmas "Bauble" Shoot

- 1<sup>st</sup> Rob Enticknap 14 points
- 2<sup>nd</sup> Lee Ricketts 12 points
- 3<sup>rd</sup> Alan Jones 10 points

### Subs

Both NFAS and Club subs are due by 31<sup>st</sup> March  
You must have your new NFAS card before you can rejoin Ratpack.  
Both can be done online. NFAS at "NFAS.NET" and Ratpack at "RATPACKARCHERS.CO.UK"

### Long Drop Loo

For safety reasons there is a new path to get to the long drop loo.  
From the containers enter the laurels behind the fire bin and follow the red/white tape that is fixed to the trees.  
Please return the same way.

### Red Course

The red course will be re designed in the near future.  
Andy has said that he intends making it an "evil" course with some long shots and cleverly positioned targets.

The new roof is finally finished
