

Ratpack Archers Newsletter October 2018

A27 Bypass Update

Binsted residents have won their Judicial Review, and the case will now go before a judge sometime next year. South Downs National Park also won theirs, and the cases could be heard together

Red course has been re-laid. There are now 16 pegs and some very interesting shots. When the course gets muddier, we will check that the bridges are in the correct place.

Thanks to all those who helped us during the week the work was done. 15 of the bosses were repaired, new faces put out and others repainted.

Keep an eye out for new target faces on the Green course during October. We hope to put out some Zombie and Halloween faces. Remember that zombies can only be killed by a shot to the brain. Hitting them anywhere else does not slow them down. So get your zombie killer arrows ready.

Currently we have 62 members. All the Induction Courses are now finished until next May

We are considering hiring a hall and running a course on wooden arrow making and serving strings. We would also include, bracing height and things like where the nocking point should be.

If sufficient members are interested we will arrange a date. Please contact Andy if you wish to attend.

CLUB CHAMPS

Remember you must complete 1 Big Game and 1 3D to be entered. Your last chance is Sunday 25th November for Big Game and Sunday 17th February for 3D.

Mark it in your diaries.

Toby attempts to get Ratpack banned from Co of 60 by shooting the head off one of their targets
